

The Spotted Spa Retreat Senior Consent Form

Here at the Spotted Spa we understand that as your pet ages their needs change. To make your Senior Pet's stay the best we can we do ask that you fill out the following form and in the case of a sudden illness or even death what you would like us to do.

1) Do you ever notice your pet limping?

If so what leg?

2) Does your pet have difficulty rising or with regular exercise?

4) Would you like your pet to only participate in morning hikes and relax in one of our smaller yards in the afternoon?

3) Has your pet ever had a seizure?

If so, how long did it last?

When was the last seizure?

Describe the seizure and any pertinent information:

4) Have you noticed any lumps or bumps on your pet?

If yes where are they located?

5) Is your pet on any kind of medication?

If so describe type, how it is given, and how frequently:

The Spotted Spa Retreat Senior Consent Form

Because we just don't know how many days our furry friends have on this earth, we would like to ensure that in the event that your pet passes while in our care your exact desires are carried out.

Would you like to be contacted while away? If so what are any and all numbers we could get a hold of you at?

However, if we are unable to reach you for whatever reason we would like to go over a few questions:
Where would you like us to go?! (ie. Your vet clinic?)

Would you like an autopsy/necropsy performed?

What would you like done with your pet? Wait at the vet clinic for your return? Cremation [if yes private (ashes returned to you) or group]?

At what point, if your pet's health starts to deteriorate, do we take them to the vet and how much palliative care do you want done? A maximum amount of money? Or any other comments you have for us are greatly appreciated!
